## New time management system goes into effect May 6

A new time management system for Marshall civil servants goes into effect May 6. WebTADS2 is an enhanced version of Marshall's current Web-based time and attendance system. WebTADS2 allows employees to enter their own time and the system validates data at the point of entry. It also will route time sheets for electronic approval, accommodate travel requests and approvals for overtime and leave, as well as process prior pay period adjustments. For more information, or to sign up for training, call Pamela Vaughn at 544-9372 or Iris Rivera at 544-2551.
